

Bankline

Enhanced online banking for non personal customers

Our digital banking service, **Bankline**, allows you to view all of your business accounts on one profile, create multiple users with different access levels and make payments of all sizes online.

What is Bankline?

Bankline is an enhanced digital banking service for businesses, giving you real time balance and transaction reporting on all of your business accounts online. You can add as many users as you need, customise what they can see and do, and make payments of any size.

You can use Bankline to complete everyday banking tasks, from opening and closing accounts to stopping cheques, all online. There's a companion mobile app, so you can manage your banking on the go. If you need to link your accountancy package directly into Bankline, you can do that too.

Is **Bankline** right for you?

Bankline is suited to businesses that need customisable digital banking with a range of user management options. There's a monthly service fee, based on the number of accounts you register (find more information about fees and charges, on the next page).

You might consider Bankline if you need to:

- Report and use more than 50 bank accounts, including **currency current accounts**
- Provide different levels of access for your team, so they only can view and do what they need to
- Ensure payments are signed off by two authorisers (dual authorisation)
- Make CHAPS payments online or daily payments that total over £50k
- Import payment files or link to your accountancy package

Stay safe with Bankline

Bankline has a sophisticated range of security features to put you in control and help protect your business from fraud.

- You can choose when two or more authorisers will be needed to approve payments or changes
- You decide what access and privileges each of your users have
- You can set customised payment limits that work for your business, and decide when extra levels of approval are needed
- You'll be able to monitor all activities with an audit log that captures actions on an individual level
